

# Adegboye Ayotomide

## Fullstack Developer

Lagos, Nigeria | adegboyetommy@gmail.com | +2349131298538

Portfolio: adegboye-tommy-port.onrender.com | GitHub: github.com/999tommy | LinkedIn: www.linkedin.com/in/adegboye-tommy-125098254

## Professional Summary

Self-taught fullstack developer with strong experience delivering scalable SaaS platforms, e-commerce solutions, and data-driven applications. Skilled in modern frameworks (Next.js, React, Supabase, Node.js) with proven results improving engagement and shipping projects ahead of schedule. Blends academic background in Biochemistry with real-world software expertise to bridge science, business, and technology.

## Work Experience

### Full-Stack Developer (Freelance)

Lagos, Nigeria | Jan 2023 – Sep 2024

Developed and deployed responsive web apps improving user engagement by up to 40% within 2 months. Delivered multiple projects ahead of schedule while enhancing client satisfaction and system reliability.

### Junior Developer – Resavation

Sep 2023 – Jan 2024

Contributed to building a scalable roommate and property management platform. Optimized search features, improved UI responsiveness, and collaborated on backend integration for smoother property listing management.

### Full-Stack Developer – Drop Innovation Ltd

2025

Built and deployed multiple web and mobile apps. Introduced dev process improvements, boosting efficiency by 89%. Led feature rollouts supporting enterprise-level adoption.

### Software Development Instructor – Jif Technology

2021 – 2022

Taught 100+ students modern frontend (React, TailwindCSS). Mentored developers on best practices.

## Projects

**Quantum Chain** – Quantum-resistant blockchain for the post-quantum era with zero-knowledge privacy (Next.js, Node.js, Solidity).

**Axist** – Intelligent automation and predictive insights platform for creators (Next.js, Supabase, TailwindCSS).

**Astrowtig** – Social AI music streaming platform with tokenized rewards (React, Node.js, Web3).

**Anime Streaming App** – Animated streaming platform for HD anime content (React, TailwindCSS, Framer Motion).

**Hafrik** – Social networking platform for foreigners in China (Next.js, Supabase, PostgreSQL).

**Clcommerce** – Fullstack e-commerce app with admin dashboard, product management, and user reviews (MERN stack).

## Education

B.Sc. Biochemistry – Federal University Oye Ekiti

Diploma in Software Development – JIF Technology (2021)
